

## Case: Terminated Employee Seeking Unemployment Insurance Compensation

I was working at a private sector company in the UAE and was terminated without disciplinary action after 13 consecutive months of employment. I was enrolled in the UAE Unemployment Insurance Scheme throughout my employment, and my basic salary was AED 12,000.

I have not yet found another job, and I want to apply for compensation under the unemployment insurance law.

### Questions:

1. Am I eligible for compensation based on my current situation?
2. What is the process for applying and how long will I receive payments?
3. Is the amount fixed or based on my salary?
